

Assignment: Molecules and Networks

Construct a table like the one below. Fill in your table by consulting CD ROMs, the Internet, Intranet, etc. List the sources you consulted and give a detailed reference.

Substance	Formula	Properties			Diagram of structure
		melting point	boiling point	solubility in water	
Methane	CH ₄				
Carbon dioxide	CO ₂				
Ethanol	C ₂ H ₅ OH				
Diamond					
Silica silicon(IV) oxide
